Daryl G. Atwood, Colonel, USAF  
Director, Environmental Management  
Department of the Air Force  
Headquarters Strategic Missile Center (SAC)  
Vandenberg Air Force Base, California 93437-5000

Dear Colonel Atwood:

This letter is in response to your request of October 15, 19, 1990 for a second extension of the 90 day hazardous waste storage limitation at Vandenberg Air Force Base at the above address.

After reviewing your request, I hereby grant another thirty (30) day extension in accordance with the provisions of 40 CFR, Part 262.34(b), hazardous waste storage accumulation due to unforeseen, temporary and uncontrollable circumstances.

This extension is effective until November 13, 1990 and does not alter your responsibility to otherwise comply with applicable requirements under the Resource Conservation and Recovery Act. I have granted this request based on information presented in your October 15, 1990 letter.

In addition, this extension does not relieve you of your responsibility to comply with State and local requirements which may be more stringent than EPA regulations. For further information about State requirements you should contact the California Department of Health Services, Toxic Substances Control Division, 714 P Street, Sacramento, CA 95814, concerning their requirements.

If you have further questions you may contact Stan Brown of this office at (415) 744-2098.

Sincerely,

Rich Vaille, P.E., Chief  
State Programs Branch  
Hazardous Waste Management Division

cc: CA Dept. Health Services (Region 3)
